

OZEN PRES MAKİNA SANAYİ VE TİCARET LİMİTED ŞİRKETİ

Ozen Pres has been founded in 1976, to perform it's activities in the field of automobile sub-industry. It has developed in parallel with the devolping automobile industry within the country and continues to grow further. Currently Ozen Pres is continuing it's activities on a closed area af 7000 m2. We perform sheet stamping, welding and assambling of the parts. Although, most of the matrices and fixtures that we use in our production processes are manufactured by ourselves, we also obtain support from the auxilary industry. Mainly we specialize on the seat tracks, car jacks, chassis and body parts.
