

## YAVUZSAN OTOMOTİV SAN. TİC. LTD. ŞTİ.

Yavuzsan started its operations in 1976 and has been working on brake discs for many years. While Yavuzsan benefits from its long years of experience in production and service, it maintains the excitement of the first day while following new developments and technologies. By following new technologies and raw materials, it strives to provide better quality products and services to its customers. Yavuzsan attaches importance to R & D studies with the aim of new product design and makes serious investments in R & D. He also follows the developing metallurgy materials and techniques in his new designs. Our products are pouring, processing, quality tests and distribution, starting from the design phase, in a closed area of 20,000 m<sup>2</sup> and an open area of 35,000 m<sup>2</sup>. Our production site consists of design, foundry, machining and quality control center sections. There are 1500 product types in our company and efforts to increase the product range are continuing rapidly. It is the company that produces the most types of discs in its country with the production of brake discs and drums of passenger cars and all light commercial vehicles. Yavuzsan, which has been given the values of respectability and reliability in the field of brake discs in its country by its customers, is working hard to protect these values. Continuing its exports in Europe, the Middle East and Russia regions without compromising its philosophy and values, it exports its export brand WOD to every region of the world. Since 1976, Yavuzsan has defined this improvement as its philosophy.
